SAR Mission Statement

Guest Speaker was Salina Baker who gave a presentation on the life of General Nathanael Greene and the American Revolution

In a previous article Ellis County Chapter #70 of Texas SAR announced the installation of three new members. Well, there were actually six new members and due to events beyond our control the install was divided into two separate events, and this is "THE REST OF THE STORY!"

Jason Mauldin and his two sons were installed as new chapter members on Saturday, June 22, 2024. The boys, Maxwell and Myles Mauldin are Junior SAR members. They are recognized as full Chapter members like their father, but not yet allowed to vote, nor do they have to pay dues. Upon their respective 18th birthdays, they will automatically become full SAR members in every respect.

"The Chapter welcomes the young compatriots and look forward to watching them grow and take their place in our community and the Texas SAR", says Chapter President, John Haughton. "They were perfect gentlemen during the meeting and the installation ceremony."

The musket shown being presented to Ellis County Chapter's newest SAR members (Jason Maxwell Mauldin, his sons Maxwell and Myles) by their Uncle, Tom Whitelock, has been in the Whitelock family for over six generations. The Maxwell name has been used as a middle or first or last by the males during each of those periods, thus lovingly called "**The MAXWELL MUSKET**". Photo by Paul Ridenour.
