Mohammad serves as a Field Training Officer, a role that demands not only a vast medical knowledge and experience but also patience, leadership, and the ability to inspire others. Mohammad brings all of these qualities, and more, to the table every single shift.

What makes Mohammad truly special to our organization is his unwavering commitment to developing the next generation of EMTs and Paramedics. He understands that training is not just about teaching policies, procedures, and guidelines; it's about building confidence, instilling judgment, and modeling what it means to serve with heart.

Mohammad possesses a natural ability to lead by example. His calm demeanor, strong work ethic, and approachable style have earned him the respect of both his trainees and peers. Trainees under his guidance not only leave their training more capable, but they also leave inspired.

Beyond his skill as a trainer, Mohammad is also known for his team-first attitude. He is the kind of person who steps up without being asked, checks in with his colleagues, and always seeks ways to improve our organization. For all of these reasons, and for the lasting impact he continues to make, I am so proud of Mohammad for receiving this accommodation.
